supplied by:

CleaningTabs

for insulating jugs

For the reliable removal of stubborn deposits caused by coffee or tea in all insulating jugs with glass refills and for stainless steel jugs. Prevents cultivation of germs and bacteria.

Contains 25 tabs, for appr. 12-20 insulating jugs. Professional recommendation: Thorough cleaning every 8-12 weeks with Helios cleaning tabs for all insulating jugs which are not suitable for the dishwasher.

Application: Fill jug with warm water, depending on degree of stains, add 1-2 cleaning tabs per liter of water. Allow to soak for ca. 2-3 hours.

In case of heavy stains, add 3 tabs and leave overnight. Rinse thoroughly with clear water. Hygienic purity thanks to biodegradable active oxygen.

Item-No.: 9901
Content: 25 pieces
